

# Social Language Development Test– Adolescent

## Revised Normative Tables

---

Linda Bowers, Rosemary Huising, and Carolyn LoGiudice

---

In 2014, PRO-ED, Inc. acquired the LinguiSystems assessment product line. Using the original data collected by LinguiSystems, PRO-ED has smoothed the normative tables to improve the item gradients and produce tables that are more sensitive to small differences in performance within and across ability and age levels. This booklet provides the improved normative tables for the *Social Language Development Test–Adolescent*. These tables are intended to replace Tables 3-1 through 3-6 provided on pages 47 through 52 of the *Social Language Development Test–Adolescent* Examiner’s Manual.
