SPEECH LANGUAGE ASSESSMENT CHECKLIST FOR ADOLESCENTS

Overview: This checklist was created to assist speech language pathologists in screening and identifying language weaknesses/deficits in adolescents 12-18 years of age who may require assessment and intervention services. Provide this form to caregiver/s **and** classroom teacher to fill out. Depending on the student's age and ability, the form may also be given to the student directly, so s/he can identify own areas of difficulty as well. It is important to give this form to several individuals to ensure *consistency* of deficits, prior to determining whether an assessment is warranted and if so, which assessment areas need to be targeted.

SPEECH LANGUAGE ASSESSMENT CHECKLIST FOR ADOLESCENTS 12-18 YEARS OF AGE**PURPOSE:** To determine primary areas of weaknesses to be targeted for assessment (if needed)**I. STUDENT INFORMATION:**

Date: _____ Student's Name: _____ Sex: _____ Student's Age: _____ DOB: _____
 Referred by: _____ Classification: _____
 Language(s) spoken/understood by student (please list): _____
 Current Medical Diagnoses: _____
 Current Language Diagnoses: _____
 Previous Speech and Language Services: ___ No ___ Yes If Yes, when? _____

II. PLEASE CHECK ALL APPLICABLE AREAS OF DIFFICULTY (place \checkmark next to significant areas of difficulty)**A. Receptive Language**

- ___ Difficulty responding to questions and following instructions on daily basis
 ___ Difficulty responding to *abstract* questions (intact ability to answer factual questions and follow directions)
 ___ Difficulty comprehending abstract language (vocabulary, concepts, etc.) in the classroom
 ___ Difficulty understanding main ideas in verbal messages and classroom discussions
 ___ Difficulty remembering details from verbal messages and classroom discussions
 ___ Decreased metalinguistic abilities (reduced ability to think about and discuss language)
 ___ Other: _____

B. Memory, Attention and Cognition

- ___ Easily distracted
 ___ Difficulty sustaining adequate attention in the classroom
 ___ Makes careless mistakes on assignments because s/he is not paying close attention to details
 ___ Requires frequent repetition of directions and instructions
 ___ Difficulty remembering names of people/places
 ___ Requires increased processing time to respond to questions
 ___ Frequently forgets presented information
 ___ Difficulty recalling the order of presented instructions
 ___ Difficulty setting goal to complete assignments
 ___ Difficulty thinking in abstract, creative, flexible and imaginative ways
 ___ Mental rigidity characterized by difficulty understanding issues from multiple points of view
 ___ Difficulty thinking through ideas
 ___ Difficulty organizing and integrating information
 ___ Difficulty thinking hypothetically
 ___ Inconsistent task performance (e.g., accuracy varies from day to day)
 ___ Difficulty with skill generalization across situations
 ___ Other: _____

C. Expressive Language

- ___ Poor morphological awareness (manipulation of root words, prefixes, suffixes, and grammatical inflections to form words)
- ___ Makes grammatical errors when speaking
- ___ Difficulty formulating syntactically complex sentences with appropriate subordination
- ___ Difficulty formulating responses to questions without excessive prompting
- ___ Difficulty verbally sequencing the order of information (steps of a problem, order of recipes, events in a story)
- ___ Difficulty retelling procedures such as rules of a sports game or a videogame
- ___ Avoids class discussions
- ___ Other: _____

D. Vocabulary

- ___ Mishears and mispronounces novel words and/or names
- ___ Produces malapropisms (You are punctual → You are punctuated; Empire State Building → Entire State Building, New Hampshire → New Hamster; etc)
- ___ Difficulty comprehending and using abstract nouns, verb and adjectives (e.g., displeasure, aroma, duty, etc.)
- ___ Difficulty comprehending and using low-frequency words found in grade-level text (e.g., agony, combustible, excavate)
- ___ Frequent use of non-specific vocabulary words (thing, stuff, etc)
- ___ Difficulty learning new vocabulary words (mispronunciation, poor recall even after excessive repetition)
- ___ Difficulty providing appropriate definitions of words (definitions are vague, imprecise, inadequate, etc)
- ___ Difficulty understanding and using technical subject-specific terms (e.g., metamorphosis, carbon monoxide, etc)
- ___ Difficulty understanding morphologically complex words (e.g., tactlessness, inconsolable, merciless)
- ___ Difficulty comprehending and using figurative language (e.g., idioms, metaphors, similes, personification, hyperboles, clichés, etc.)

E. Discourse

- ___ Difficulty “getting to the point” in conversational exchanges
- ___ Word-retrieval difficulties characterized by false starts, word fillers (e.g., *um*, *ah*), word and phrase revisions, and repetitions, word substitutions, and word distortions
- ___ Difficulty producing oral reports on familiar/researched topics
- ___ Difficulty producing original stories with adequate details (e.g., character referencing, event elaboration)
- ___ Poor use of expository discourse characterized by difficulty appropriately explaining/describing topics
- ___ Poor use of persuasive discourse characterized by difficulty appropriately convincing others to perform actions or adopt a certain position/stance (e.g., debate an issue)
- ___ Difficulty entertaining peers with amusing anecdotes
- ___ Other: _____

F. Speech

- ___ Poor speech intelligibility (difficult to understand when speaking due to sound errors)
- ___ Has residual speech sound errors (e.g., distorts /r/ sounds)
- ___ Stutters (makes sound and syllable repetitions, prolongations, and blocks)
- ___ Clutters (excessive breaks in the normal flow of speech, disorganized speech planning, talking too fast or in spurts, etc)
- ___ Lisps
 - ___ (Frontal) Protrudes tongue between teeth when making /s/ and /z/ sounds

___ (Lateral) ‘Slushy’ sounding /s/ and /z/ sounds because air escapes on the sides of the mouth vs. center
 Other: _____

G. Voice* (may need medical referral)

- ___ Deviation in vocal pitch
 ___ Voice is too high for the student’s age
 ___ Voice is unnaturally low for the student’s age
 ___ Deviation in intensity
 ___ Difficulty speaking loudly (voice unnaturally soft and whispery)
 ___ Speaks too loudly
 ___ Deviation in quality
 ___ Hoarseness
 ___ Harshness
 ___ Breathiness
 ___ Vocal strain
 ___ Vocal fatigue
 ___ Aphonia (frequent loss of voice)
 ___ Pain or throat soreness during speaking tasks
 ___ Habitual cough unrelated to an illness or a chronic condition (e.g., asthma)
 Other: _____

H. Prosody

- ___ Inappropriate word stress
 ___ Inappropriate sentence stress
 ___ Monotone (equal stress on words)
 ___ Jerky speech
 ___ Rapid and pressured speech
 ___ Multisyllabic word stress
 ___ Excessive and misplaced stress
 ___ Slow and halting speech
 ___ Rising intonation at the end of sentences (as though asking a question)
 ___ Lack of rising intonation at the end of questions (unclear when asking a question)
 ___ ‘Sing-song’ intonation
 Other: _____

I. Resonance* (may need medical referral)

- ___ Speech sounds nasal all the time (airflow escapes through the nose on non-nasal sounds such as /b/, /s/)
 ___ Speech sounds denasalized (as if the student is congested all the time; may be due to nasal obstruction)
 ___ Voice sounds muffled and low in volume
 Other: _____

J. Reading

- ___ Frequently loses place when reading
 ___ Poor reading fluency characterized by reduced rate, halting word productions, and invented wording (guesses at unfamiliar words)
 ___ Reverses letter order in words (e.g., tac → cat; saw → was; etc)

- ___ Substitutes/leaves out words when reading
- ___ Difficulty applying rules of syllabification
- ___ Lack of referential knowledge (difficulty recognizing previously learned words in print)
- ___ Lack of relational knowledge (difficulty recognizing synonyms and antonyms in text)
- ___ Difficulty differentiating homonyms (different meaning words)
- ___ Difficulty decoding prefixes and suffixes
- ___ Difficulty decoding novel words
- ___ Difficulty comprehending what is read characterized by inability to answer text-related questions
- ___ Difficulty coherently summarizing read stories and passages
- ___ Difficulty comparing and contrasting characters and events
- ___ Difficulty recognizing different uses of words in context (that word meaning is context dependent)
- ___ Difficulty using text based context clues to determine definitions of words
- ___ Difficulty understanding author's purpose
- ___ Difficulty drawing conclusions based on presented text
- ___ Dislikes/avoids reading
- ___ Other: _____

K. Writing

- ___ Difficulty with written productivity (e.g., reduced essay or composition length)
- ___ Difficulty selecting word choices when writing
- ___ Difficulty with grammatical complexity (e.g., grammatical errors in written work)
- ___ Difficulty with syntactic complexity (e.g., lacks/limited use of complex and compound sentences)
- ___ Difficulty with writing mechanics (e.g., capitalization and punctuation errors)
- ___ Spells poorly and inconsistently (e.g., spells the same word differently throughout the same composition)
- ___ Difficulty with coherence and cohesion (lack of logical sequencing of events in a story)
- ___ Difficulty organizing and producing written composition (e.g., run-on sentences, disorganized topics & themes)
- ___ Difficulty drafting, revising, and editing written reports
- ___ Dislikes/avoids writing
- ___ Other: _____

L. Problem Solving:

- ___ Difficulty making inferences (providing logical explanations about situations)
- ___ Difficulty identifying causes of events
- ___ Difficulty determining solutions to presenting scenarios
- ___ Difficulty problem-solving situations (recognizing conflicts, evaluating options to provide the best solution)
- ___ Difficulty determining perspectives (evaluating different points of view to reach appropriate conclusions)
- ___ Difficulty generalizing insights (comparing and evaluating analogous situations to learn from experience)
- ___ Easily influenced/instigated by others into causing trouble (does not think for him/herself, easily led, poor decision making, etc.)
- ___ Difficulty considering implications and consequences of actions
- ___ Difficulty forming opinions
- ___ Lack of caution and discrimination when providing personal information to others
- ___ Other: _____

M. Pragmatic Language Skills

- Reduced eye contact with speakers/listeners in conversational exchanges
- Reduced/blunted affect (lack of/limited emotional reactivity in conversational exchanges)
- Excessive affect in conversational exchanges (rapid shifts in mood and emotional expression - cry when upset or angry even though it is unwarranted by the situation)
- Difficulty initiating and maintaining social interactions
- Difficulty interrupting appropriately (taking turns and allowing others to speak)
- Inability to make smooth transitions results in abrupt topic shifts
- Unable to adjust the content and style of speech to thoughts and feelings of others.
- Difficulty adjusting messages to different listeners (e.g., adults vs. children, social status, familiarity, etc)
- Difficulty repairing communicative breakdowns (clarify own message to make it more coherent and cohesive)
- Difficulty discussing topics in a logical, concise and relevant manner
- Difficulty appropriately regulating language in a variety of contexts
- Difficulty politely bargaining (e.g., uses whining and begging when unable to obtain something)
- Difficulty requesting help when needed
- Difficulty formulating questions when requires clarification
- Difficulty understanding conflicting messages
- Difficulty understanding and/or using humor irony and sarcasm (e.g., misses joke subtleties, unable to gauge if people laughing at or with them)
- Difficulty detecting and responding appropriately to teasing
- Other: _____

N. Social Emotional Development

- Difficulty identifying own and others emotions
- Difficulty recognizing other people's moods
- Difficulty recognizing and identifying facial expressions and body language of others
- Difficulty understanding perspectives of others (e.g., recognizing that others have different feelings, ideas, intentions, beliefs, thoughts and desires from own)
- Difficulty understanding social missteps (socially inappropriate actions)
- Difficulty understanding and interpreting social messages
- Difficulty independently functioning in large groups (needs direct supervision)
- Difficulty predicting people's unstated plans and motives
- Difficulty seeing the "big picture" of messages and conversations
- Difficulty producing sympathetic responses to peers (blurts out inappropriate comments; considered rude by others)
- Difficulty engaging in interpersonal negotiations (e.g., successful conflict resolution, social negotiations)
- Difficulty with flexible thinking characterized by difficulty providing multiple interpretations of social situations
- Difficulty making and keeping friends (e.g., has no friends, "everyone" is a friend, forms superficial friendships)
- Lacks social adaptability (e.g., doesn't "go with the flow", difficulty adjusting to unexpected situations easily)
- Lacks awareness of own strengths and challenges

O. Executive Functioning (place a check as well as underline specific behaviors):

- Difficulty inhibiting behavior (interrupts, blurts things out, talks at the wrong time, acts before thinking, etc)
- Difficulty focusing/shifting attention (upset by changes in plans, doesn't understand that a problem can be solved in different ways, perseverates on same topic, easily distractible)
- Difficulty with emotional self-control (over-reactive, gets upset too easily, mood fluctuates rapidly, low

- frustration tolerance, small events trigger disproportionate reactions, etc)
- ___ Difficulty with self-monitoring/self-regulating academic work/social behavior (doesn't check work for mistakes, makes careless errors, unaware how own behavior affects others/ causes negative reactions, poor understanding of own strengths and weaknesses, sloppy work, etc)
- ___ Difficulty with organization/ planning/execution of age-level tasks/activities (homework, projects, reports)
- ___ Difficulty with task initiation (homework, reports, chores, underestimates time needed to complete a task, becomes overwhelmed by large assignments, has trouble reaching set goals, lacks follow through, etc)
- ___ Difficulty with organization of materials/belongings (messy, unorganized,)
- ___ Difficulty regulating alertness levels ("too wired" or "too tired", gives up easily, difficulty sustaining long term effort)

Please write a descriptive summary of the student's **most significant** present difficulties:

ADDITIONAL INFORMATION

Does the student have any medical concerns: ____ If so, please list: _____

Do the student's communication difficulties affect him/her on daily basis? ____ Yes ____ No

If so, how? _____

Do you suspect the student may have other delays/deficits? ____

If so, in what area(s)? (Please circle below)

Intellectual/Cognitive

Academic Achievement (reading, math, writing)

Motor

Social/Emotional

Behavioral

Other (specify) _____
